

Lynn R. Lage

Office Manager
Assistant to the President

Lynn came to First Business Brokers, Ltd., in March of 1990 after an extensive career in the radio industry.

Lynn's radio career ran the gamut. She began at KFWJ in Lake Havasu City, Arizona, while in high school. Her position developed from receptionist and secretary, to traffic, production, and finally radio announcer. When she moved to Colorado Springs in 1981, she began working at KRDO, then moved on to the Transtar Radio Network where she worked full-time in the accounting department.

In 1990, Lynn began her second career in the business brokerage industry. (When Transtar Radio Network merged with United Stations and became the Unistar Radio Network, her department was relocated.)

Lynn started at First Business Brokers, Ltd., in the position of Office Manager. In November of 1992, Lynn obtained her Colorado Real Estate Sales license and began assisting Ron Chernak with his clients and customers. In 1998, she obtained her Colorado Real Estate Broker's license.

Although Lynn is still the Office Manager and is responsible for the day-to-day activities of the office, she also works very closely with Ron Chernak's buyers and sellers; assisting buyers in their search for a business, and writing presentation packages for the sellers to market their businesses.

"The feeling I get when a buyer and seller walk out of the conference room after the closing, both with big grins on their faces and ready to start the next leg of the journey in their lives, is worth every minute invested and every ounce of energy I have dedicated to my job. I love what I do!"
